

Texas Spine & Joint Hospital

Oculo-facial Plastic Surgery

PRIVILEGE	REQUESTED	GRANTED	NOT GRANTED
LID			
Blepharoplasty			
Ptosis repair			
Correction of lid retraction			
Entropion/ectropion repair			
Canthus revision/reconstruction			
Myectomy			
Correction of blepharospasm			
Biopsy or excision of any tumor/mass/lesion & associated reconstruction			
Drainage/excision/debridement of orbital abscess			
Laceration repair			
Scar revision			
Soft tissue flaps, grafts			
Synthetic implants			
Reconstruction for congenital, traumatic, cicatricial or involutinal deformities/malposition			
FACE			
Rhytidectomy, cosmetic or reconstructive: Laser or chemical skin resurfacing Brow-forehead lift Midface lift/SOOF lift Lower face/SMAS lift			
Lipectomy			
Biopsy or excision of soft tissue tumor/mass/lesioni & associated reconstruction			
Drainage/excision/debridement of JCC abscess			
Laceration repair			
Scar revision			
Soft tissue flaps, grafts			
Harvest mucosal, palate or cartilage grafts			
Synthetic implants, cosmetic or reconstructive			
OCULAR SURFACE/GLOBE			
Biopsy or excision of conjunctival, corneal or scieral tumor/mass/lesion			
Conjunctivoplasty including grafts or flaps			
Fornix reconstruction			
Lysis of symblepharon			

JCC conjunctival laceration repair			
JCC conjunctival foreign body removal			
ORBIT			
Enucleation/evisceration			
Extenteration			
Orbitotomy, any approach			
Orbital fracture repair, including orbital walls, rim and ZMC			
Biopsy or excision of orbital tumor/mass/lesion			
Removal of orbital foreign body			
Drainage/excision/debridement of orbital abscess			
Orbital decompression, bone or soft tissue			
Caldwell-Luc approach to sinus and orbit			
Synthetic implants			
Retrobulbar or peribulbar injections			
Anophthalmic socket reconstruction/revision			
Mucous membrane, preserved tissue or other soft tissue grafting			
Orebita volume augmentation			
NASOLACRIMAL			
Probing, irrigation and intubation of nasolacrimal system			
Dacryocystorhinostomy			
Conjunctival dacryocystorhinostomy w/Jones tube			
Ballon dacryoplasty			
Dacryocystotomy/dacryocystectomy			
Excision of lacrimal sac mass			
Punctal and canalicular repair/reconstruction			
Nasal polypectomy			
Nasal tubinectomy or infraction of turbinate			
Ethmoidectomy			
Miscellaneous			
Use of local anesthetics for local infiltration or regional blocks			
Use of Parenteral sedation			
Laser iridotomy or capsulotomy			
Harvest dermis, fat, fascia, and skin grafts from neck, trunk, extremities or other harvest sites remote from the face, with primary repair of harvest site.
